

DISCBASE

Tournament software for disc golf

PRODUCT BROCHURE

For federations

& clubs

October 2026

THE DIGITAL TOURNAMENT HUB FOR EVERY FEDERATION.

Discbase is a platform built specifically for disc golf: registration, the tournament day on your phone, results, series – plus club and federation management. Bilingual, connected to the PDGA, proven at the 2026 Austrian club championships.

and admins

WHAT DISCBASE DOES

02 / 05

Discbase covers everything around a disc golf tournament and everyday club life – as running, tested software, not a concept.

01

REGISTRATION & PLAYERS

Registration windows, capacity with waitlist, wildcards, spots per division and registration waves by PDGA rating – computed from the tournament date for ÖDGV templates. Doubles register as a pair, questions like “pre-order food” feed a live order overview.

Waitlist Waves Doubles as a pair
Online payment Discount codes
Order overview

02

FORMATS & SCORING

Stroke play, doubles, match play with groups and knockout or Swiss system – live scoring on the phone with scorecard confirmation. Results of tournaments scored elsewhere can be imported by paste, CSV or Excel.

Match play Swiss system Live scoring
Bracket Results import

03

TOURNAMENT DAY & DISCBASE CADDY

From now on every player has a caddy at every tournament: schedule, “My day”, site map, holes, side events and announcements. For tournament directors: check-in with QR ticket, ace pot, tournament-day cockpit.

My day Site map Push Check-in
Offline

04

RESULTS, PROFILES & SERIES

After the event the results sit right at the top of the tournament page – with hole-by-hole scorecards. Players get a profile with career statistics, tours a cross-club series standing.

Results table Player profiles
Statistics Series Export

05

CLUBS & FEDERATIONS

Members, dues with bank QR code, reminders and a digital membership card for clubs; memberships, invoicing of clubs and member discounts for federations.

TOURNAMENT DIRECTORS

A tournament in minutes from a template; registration, payment, check-in and results in one place.

CLUBS

Members, dues and mailings – and your own tournaments embedded on the club website.

FEDERATIONS

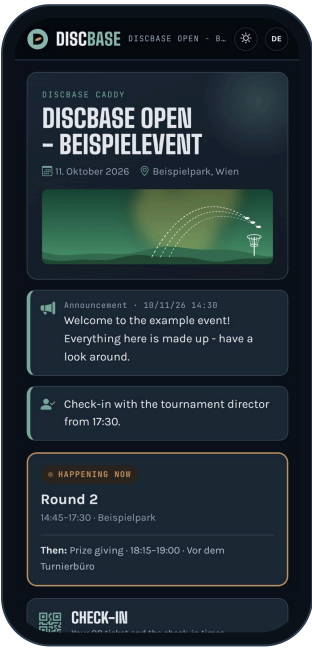

Tours and series, memberships, invoicing of clubs and numbers across the season.

PLAYERS

Register in a minute, the tournament day on the phone, a profile with every result.

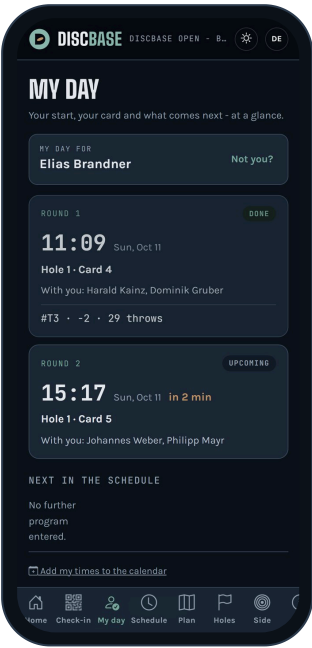

YOUR CADDY AT EVERY TOURNAMENT

From now on you have a caddy with you at every tournament – with all the key info: tee time, group, schedule, site map and every hole. Every tournament gets it automatically, open to all players a week before the start, installable like an app and working even without reception.

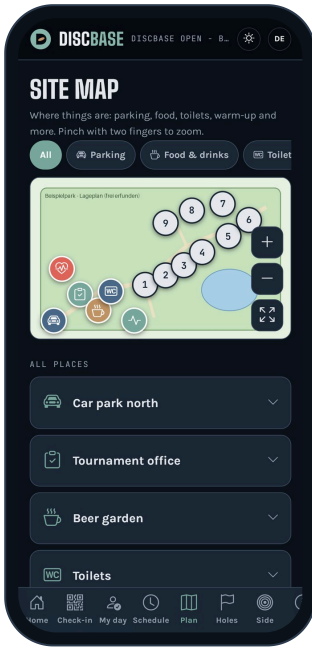

START

What is on now, announcements, check-in note.

MY DAY

Tee time, hole, group – and who you play with.

SITE MAP

Parking, food, toilets, holes – with “you are here”.

HOLES

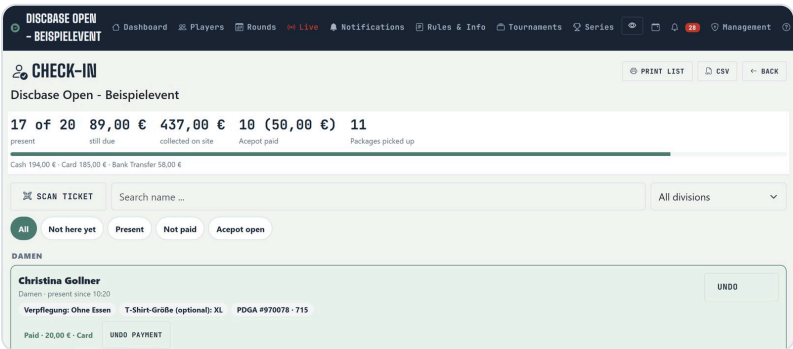

The caddybook hole by hole, detected automatically.

FOR PLAYERS

- Schedule with “happening now” and announcements
- Push: tee time, 15 minutes before tee-off, registration opens
- Enter side events (closest to pin, longest putt) right away
- QR ticket for check-in, sponsors, feedback

FOR TOURNAMENT DIRECTORS

- Templates fill schedule, info and feedback automatically
- One caddybook PDF becomes hole pages and map markers
- Check-in list with QR scan, cash on site and ace pot
- Tournament-day cockpit: who is here, what is missing, who uses the app

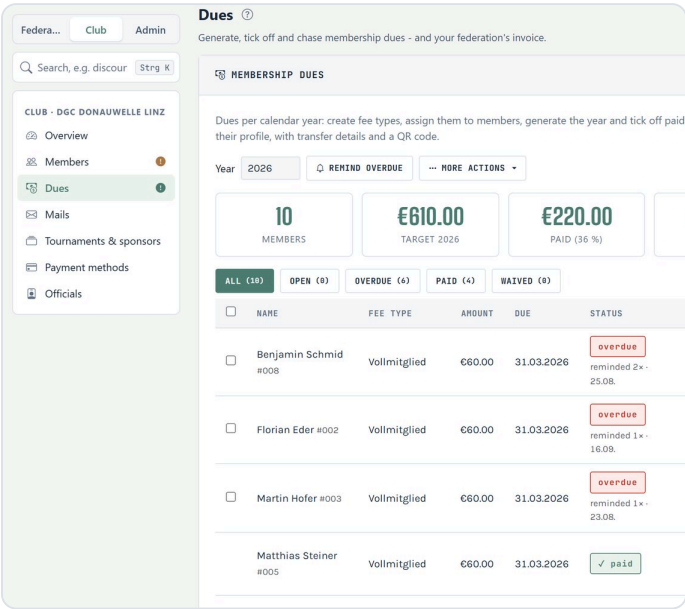

CHECK-IN ON THE DAY

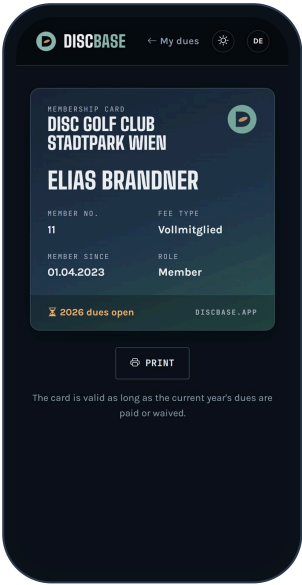

The check-in list replaces the printout: who is here, who still has to pay, ace pot and player packs – several helpers at once, scan the QR ticket or search the name. Afterwards it shows the no-shows and releases their spots to the waitlist.

MANAGEMENT INCLUDED

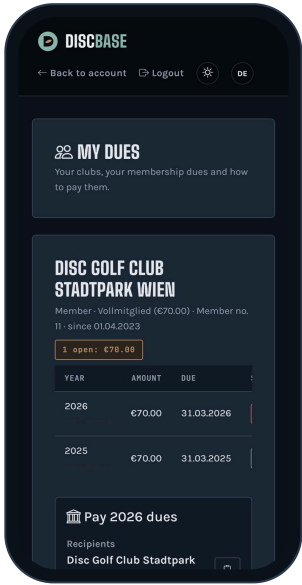

Discbase is more than tournament software: clubs manage their members and dues, federations their clubs and billing – on the same platform, with the same accounts.

A club's dues: due, paid, overdue – and remind with one click.

MEMBERSHIP CARD ON THE PHONE

"MY DUES" WITH BANK QR CODE

FOR CLUBS

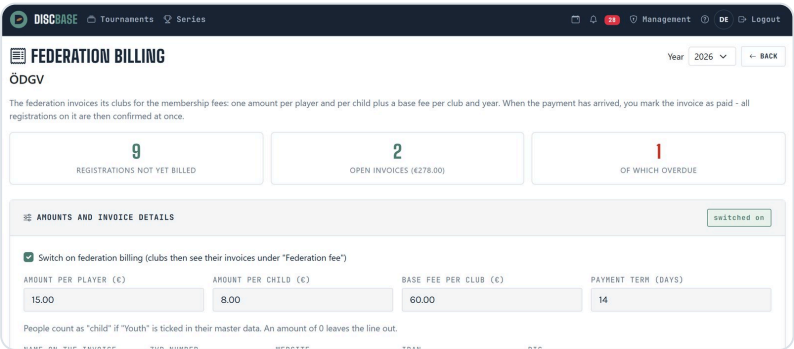

- Members with fee types, member numbers and joining date
- Create dues per year, tick them off, remind overdue members
- Pay by bank QR code or online, bank statement matching
- Digital membership card and resignation with one click
- Newsletters to everyone or targeted groups

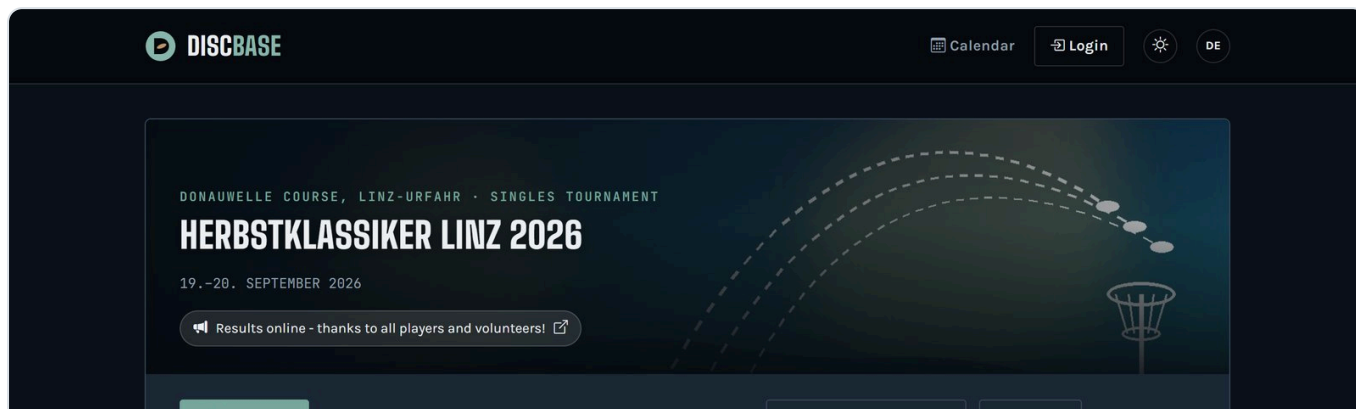

FOR FEDERATIONS

- Confirm federation memberships, see member records
- Invoice the clubs: per player, per child, base fee
- Invoices with QR code, payment status and reminders
- Member discounts at tournaments for club and federation members
- Analytics: growth and participation across seasons

FEDERATION BILLING

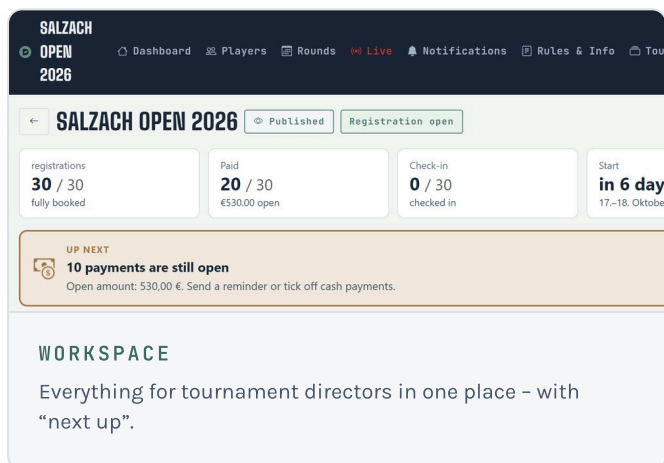

The federation sets amounts per player, per child and a base fee per club – Discbase calculates from the confirmed memberships, issues every club its invoice with a QR code and shows what is paid, open or overdue.

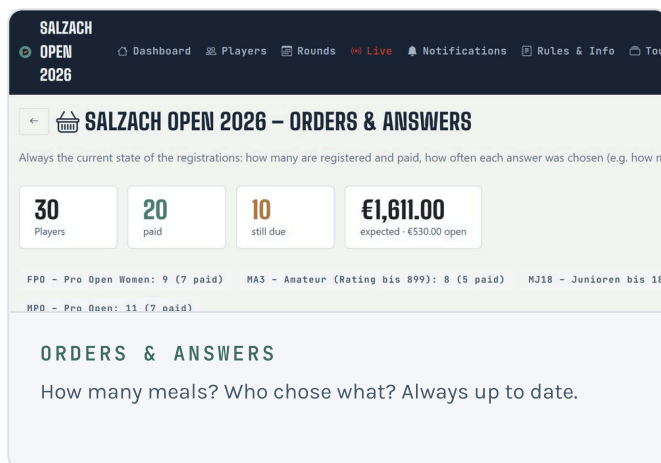

TOURNAMENT PAGE

Cover image, results at the top, registration status and weather.

WORKSPACE

Everything for tournament directors in one place – with “next up”.

ORDERS & ANSWERS

How many meals? Who chose what? Always up to date.

Excerpts from the demo environment with made-up sample data.

BUSINESS MODEL

ONE FEDERATION, ONE LICENCE

Your federation signs a simple annual agreement.

All member clubs use the platform automatically through it – tournaments, Discbase Caddy and club management, without a licence of their own and without extra costs per club or tournament.

STATUS

PROVEN IN USE.

The engine proved itself in live tournament use at the 2026 Austrian club championships. Discbase Caddy, club and federation management and the PDGA connection are an integral part of the platform.

Production infrastructure in the EU is set up, tested and ready.

SASCHA
